

HSA's LET YOU SAVE MONEY ON TAXES IN 3 WAYS:

Money you save from your paycheck goes into your HSA tax-free and lowers your taxable income.

For example.*

If you contribute before taxes:	\$3,000
Your paycheck is reduced by:	\$2,550
Your potential tax savings:	\$450

Use those pre-tax savings for qualified medical expenses and get another tax break.

What you don't use you can save from year to year. If you invest any extra savings in your account, you won't be taxed on those earnings.

Investing involves risk, including risk of loss.

*With respect to federal taxation only. Contributions, earnings and distributions may or may not be subject to state taxation. See a tax professional for more information on the state tax implications.

Fidelity does not provide legal or tax advice. The information herein is general in nature and should not be considered legal or tax advice. Consult an attorney or tax professional regarding your specific situation.
