• Standard progressive – plastic	N/A	\$55
• Premium progressive – plastic	N/A	\$95 – \$105
• Custom progressive – plastic	N/A	\$150 – \$175

Standard lens enhancements

- **Solid tints and dyes**

They aren't just for fashion. They help reduce the amount of light that can enter the eyes through lenses.

- **Plastic gradient dyes**

This treatment creates an effect where lenses are darker at the top and gradually lighten toward the bottom.

- **Scratch-resistant coating**

A film or coating that protects plastic lenses from scratching and pitting — leading to longer lasting, clearer lenses.

- **Anti-reflective coating**

This lens treatment helps prevent distracting glare and eye fatigue. It reduces the amount of light reflecting off the lens surface, making the lenses appear clearer. The eyes are also more visible behind the lenses.

- **Ultraviolet protection**

A treatment that is built into and applied to lenses as a coating to help filter out harmful rays from the sun. The process helps block 98–100% of transmitted and reflected UVA and UVB rays.

- **Polycarbonate lenses**

The lens material is thinner, lighter and harder to break than standard plastic. Under our plans, polycarbonate lenses are the standard for children's eyewear. Plus, they provide UV protection and are scratch resistant.

- **Photochromic lenses**

They are great for convenience and style. They darken when exposed to sunlight and lighten away from it.

- **Progressive lenses**

Bifocal or multifocal lenses with no visible lines where the lens power gradually changes from distance to near.

Availability of products and features are based on MetLife's guidelines, group size, underwriting and state requirements. Savings from enrolling in a MetLife Vision Plan will depend on various factors including the cost of the plan, number of visits by family members per year and the cost of services and materials.

Like most group benefits programs, benefit programs offered by MetLife contain certain exclusions, exceptions, waiting periods, reductions, limitations and terms for keeping them in force. Ask your MetLife group representative for costs and complete details.

Benefits are underwritten by Metropolitan Life Insurance Company, New York, NY. Certain claims and network administration services are provided through Vision Service Plan (VSP), Rancho Cordova, CA. VSP is not affiliated with Metropolitan Life Insurance Company or its affiliates.
